## In Harmony

Twin sets of custom vanities flanked by pendant lights anchor this Monmouth County bath designed by Mary Fran Brassard and her team from Brassard Design Associates. "We created energy by using pairs," says Brassard, a professional member of the International Interior Design Association. Custom mirrors with recessed mirrored medicine cabinets combine to visually open up the space. Vanities in a warm walnut stain and raffia-textured wallcovering ensure the room is sophisticated and inviting, Brassard says. To keep the look fresh, the design team tweaked tradition by using a classic material, Calcutta Bianco marble with river stone tiles on the floor and in the shower for an elegant zen effect, Note: The complementary master suite appeared in our June/July 2008 issue, page 190.
